Paper fleet: v5, v5_wide · v5 –Rs 2,123 net · v5_wide –Rs 610 net · Prepared by Sarathi for Soumya Swain

Bottom line. Combined gross **–Rs 1,615**, net of costs **–Rs 2,733**. 27 stop-outs cost –Rs 2,676; 16 of them reversed our way after exit, worth +Rs 1,296 had we held. Realistic money left on the table: **about +Rs 1,296** (stops) plus **about +Rs 2,204** gross on 14 BUY signals no engine took. Perfect-exit ceiling +Rs 2,605 is not a target.

2. Left on the table – how it was measured

Every closed trade replayed against Kite 5-minute candles after the close: P&L if held to 15:15 (**hold Δ**), which stop-losses reversed afterwards, and how far price travelled our way after exit (**ceiling**). Trades exited at the 15:15 force-close count as zero.

Ops notes

- v5_wide STALLED from 14:48: its rescan began refetching stale options chains for the whole universe at ~1/s, never reached the 15:15 close-out (no FINAL line), and was killed by the 15:35 auto-stop mid-scan. 11 trades vs 51-65 on other days; its 3 SWING positions carry (multi-day pool, expected). Infra bug in the data layer, not strategy – fix candidate: cap options-chain refetch per scan / skip options chains outside the rescore window. Needs Soumya's call since the engine window is frozen to 09-19.
- v5 completed normally (FINAL 15:15:17). Both engines read BEAR today, so the regime shadow's alternate was SIDEWAYS for the first time.
- DAYGAIN baseline snapshot: Nifty change at 09:35 was genuinely 0.00% (prev close 23,431.5, 09:35 bar 23,432) – verified from the index bar, not a data blank.
- Day 3 of the pre-registered experiments (window to 09-19). Kite token refreshed by hand 08:51; watchdog restarted on it, 200/200 via Kite from 09:02. M0 (Truth First) shipped overnight: pool-aware costs, terminology guard, disk rosters, evidence ledger.

5. Experiments (pre-registered 2026-09-08)

DAYGAIN baseline (computed, no orders)

Top-10 gainers 09:35 → 15:15, -3% stop	-Rs 6,054 (4 stops of 10)
v5	-Rs 2,123
v5_wide	-Rs 610

Did our scoring beat dumb? Positive engine minus baseline = yes.

Regime shadow (v5)
